Vote for us

in the local elections on May 4th 2023

An independent voice for local residents

Vote for your local
independent candidates in
Clewer & Dedworth East
at the local election on 4th May

Why vote for us

We are both local and understand what is important to the residents of Clewer & Dedworth East. Only independent councillors can put your needs and values first and we are not ruled by National Party policy. We are standing to make a positive difference to the community where we live. We are not politicians; we are local residents who believe that we all deserve better. Here are some of the topics we will fight for:

Getting Around

We will lobby to prioritise the budget to repair our pavements so that residents can be confident of walking safely. We will work with office to improve safe cycling. Working in partnership with the bus operators and officers, we will strive to meet the needs of our residents who rely on bus services. We will also work to incentivise car users to use bus services more.

Windsor Town Council

To continue to campaign for a single Windsor Town Council, thus ensuring the unparished council tax precept, which you pay each year, and developer payments are invested back into Clewer & Dedworth East.

Housing

We will focus on providing local housing for local people, making sure to create or upgrade the maximum amount of social housing. We will also back the Community Land Trust with their upcoming initiatives. Additionally, we will continue to meet with Abri to ensure the needs of our social housing residents are properly represented.

Enforcement

We recognise concern from residents about the lack of enforcement in many areas including parking, planning and speeding. We will work together with the responsible authorities to ensure that there is an improvement in parking enforcement, particularly in areas near schools.

Loneliness

We will proactively work with individual residents and local organisations to combat loneliness and isolation.

Communication

We will continue to inform our residents of any matters that could affect them.

Environment

We will take proactive steps to make the Ward more eco-friendly.
